

A Quest Towards Collective Action for Freedom & Development

**ANNUAL REPORT: 2016-2017**

## The Managing Trustee's Desk

From a very small and humble beginning in 1992, working with urban poor communities in Ahmedabad, in 2001, we expanded our reach to the deserts of Kutch supporting survivors of the massive earthquake that devastated thousands of lives that year. We then focused our work towards communities who struggled from survival due to harsh climatic conditions and had no access to basic amenities and any form of social security. In 2006, our Chhattisgarh programme began with the primary objective to work with 'Particularly Vulnerable Tribe Groups' in the central and northern parts of the state.

Since then, we have come a long way. Samerth has now spread its wings from being an implementer to developing its own expertise in Hydrogeology (ground water management). Our team is also now equipped as trainers for early childhood education work.

But the year 2016-17 has been significantly outstanding. Our programmes have seen steady growth over a period of 5 years, grants have increased by 52%. Today, the primary themes of our work are Education and Water Resource Management. 65% of Samerth's work is devoted towards natural resource management with a focus on participatory ground water management; water conservation, leveraging government programmes, forest based livelihoods, promoting comprehensive planning for villages and good governance with gender as a common theme cutting across the area of our work.

The remaining 35% is spent on education. Here we are focussed on early childhood education, working on pedagogical issues with children in primary schools, using Right to Education (RTE) as a tool in schools for better infrastructure, teaching and learning. Additionally working with children who are mentally challenged, providing nutrition, and addressing issues of child protection.

68% of our work is in Gujarat that comprises of Bastis of Ahmedabad, Rapar & Nakhatrana blocks in Kutch and Deodar block in Banaskantha. We are gradually increasing our presence in Chhattisgarh and newer opportunities have knocked on our doors to work with People with Disabilities (PwDs), and migration. The coming year looks promising and we are building our capacities to spread our wings sectorally.

This journey would not have been possible without the communities who walked us to achieve the goals. We wouldn't have been able to reach out to the unserved areas and communities without the relentless work of the Samerth Team.

We are thankful to the donor community who believed in us and shared the common goals and supported us. On behalf of the Board members, I would like to thank each one who contributed to Samerth's journey and made it possible for us to see the 24 years of its meaningful existence.

Gazala Paul

**CASE - STUDY**

This is Ramesh, he has never seen a school. Born into a joint family of migrant field workers, Ramesh followed his family wherever they went. Although his family owned land, no access to resources like seeds and water, made them highly dependent on labour work available in charcoal fields and salt pans. But today, Ramesh and his family are extremely happy and financially secure. How did this happen? In 2010, Samerth helped Ramesh's family build a Dug Well on their own land. This saw a spike in agricultural activities leading to a good yield of crops year on year. This year Ramesh has harvested cotton crop worth Rs.56000/- and castor crop worth Rs.72000/- from his farm and has made profit worth Rs.90000/- after deduction of the expenses occurred (i.e. Cost of Seeds, Fertilizer, Diesel, Extra laborers)

EDUCATION

KUTCH, DEODAR, AHMEDABAD & CHHATTISGARH

**SUPPORTED BY GRUH FINANCE LIMITED, GUJARAT CSR AUTHORITY, AHMEDABAD-GUJARAT AND MR & MRS NARENDRABHAI POPAT, USA**

- 150 children of poor and marginalized families between 3-6 years old are attending classes at Samerth's 5 early childhood education centres in Juhapura and Vejalpur in Ahmedabad.
- 54 physically and intellectually challenged with disabilities between 7-19 years have been provided with training and life skills at Samerth's Talim Kendra day care centre in Ahmedabad.

**CASE - STUDY**

Uruj loves to draw, play, cricket and listen to music. But Uruj also loves to learn. From numbers to even learning to walk- when Uruj came to Samerth Talim Kendra, he was only six year old and could hardly do any of the above. His parents were worried because unlike other children in his community, he couldn't walk, eat or wear his clothes or shoes without assistance.

A child with low IQ and special needs, Uruj lives with his parents in Juhapura, Ahmedabad where they try their best to do all they can to help their son live a better life. Uruj has been with us for three years and has quickly learned all his daily living skills.

Samerth's teachers have supported him in toilet training, muscle strengthening, mental development and social integration.

Uruj has a wonderful future  
and we were happy to help him find his journey.

**SUPPORTED BY MR & MRS HARENDRA POPAT AND INDIA DEVELOPMENT RELIEF FUND INC (IDRF), USA**

- Samerth has initiated work on sanitation issues since 2010. The project started with a vision to provide basic sanitation facilities to the poor and marginalized people from various villages in Nakhatrana block, Kutch, Gujarat.
- We have now expanded our work to include almost all intervention areas where we work, including Chhatisgarh.
- Samerth has constructed over 2251 sanitation units so far and each and every sanitation unit is fully functional.
- Proper sanitation facilities are not only important from a hygiene standpoint but also provide safety, dignity and a sense of responsibility towards cleanliness and the environment.
- 521 toilets construction work under Swachh Bharat Abhiyan was facilitated in tribal villages of Kwardha district of Chhattisgarh

**CASE - STUDY**

This is Sulemanbhal. He lives in a village known as Mota Angia in Kutch, Gujarat. He is a 40-year old man with a physical disability and lives with his mother and wife.

While his wife has a speech problem his 70-year old mother is blind. Being a family of persons with disability, a proper sanitation facility has provided them with much needed relief and support.

Suleman and his wife are even training their blind mother to use the toilet near the house. In the photograph, Suleman stands in front of his newly constructed toilet and his mother is seated in the background.

For persons with disability it is extremely important to have secure, hygienic and accessible sanitation facilities.
